BALK BILLIARD TABLES,

and hands, and other parts of my person, he imprinted himse f so positively that I can see him now plainly, as if we had parted but yesterday. He was a stout man, who made in his figure, when stout man, who made in his figure when stout man, who made in his figure when stout man, who m

and when Bangs was angry, which appeared to be all the time, it glowed like the head-light of a locomotive. His mouth was finished without lips, and resembled a dit in a piece of sole-leather.

My early experience gave me a distaste for the whip in schools. But I am far from siding with the sentimentalists of the present day, who advocate kind ness and moral sussion. The earlier achings, not the best, but, in fact, the only ones, are those of the rod, that give us a realizing souse of pain to the bedy. and drill us into patience and self-deni-

Boys are of two sorts-good little boys who die young and bully boys who cannot be killed.

As the last named only live to be men nstead of being translated into angels, it is well to discipline them through the only process known to animals, and that is the discipline of fear. The old adage is not far wrong that said : "When you not been in mischief, he is going in." What may have been my feelings

when suffering under the stick of oid Bangs, my objection to him now rests but to my dying hour, I shall remember generous impulses and large healthy brain that ought to have secured him a

not only entitled to a week's recess, but the admiration and praise of their parents. Old Bangs was famous for his powers of resistance, and boassed that no school of his had ever succeeded in conquering in such a.tempts. On the occasion to which I refer, we had two big boys in school, named Bill Henning REAL ESTATE, INSURANCE and Bob Strong. They were knotty-headed, broad shouldered, and hard fisted fellows, who worked through the summer for means to attend school during the winter. Each in turn, had been unmercifully whipped by the master, and it was understood throughout the school, that in the barring out, Master-

Bangs was to be punished, and old scores settied. The evening before the general en gagement, Bill and Bob, our noble leaders, with a few confederates, stole back to the school house, armed with hickory poles. Breaking open the door, they whittled one end of these tough saplings to a point, and then hardened the points in the fire. Then placing these is a corner ready for use, with a stout cord, they gave orders to the boys to be ready to take part in the fight, to assemble at the

school house before daylight the next

morning. At the time indicated, nearly all the lads were in line. Some were pale and trembling, others were noisy and boastful, but I observed that the real leaders and reliable soldiers were quiet- so quiet, indeed, that one might doubt them Men are but children of larger growth, said Dryden; and that solid pump of a poet, Wordsworth, assures us that "the imal propensities and states that survive dow as uncerimoniously as a pig. our boyhood, that is undoubtedly true; and many and many a time since, in hours of peril, I have seen re-enacted the same exhibition of character that occurred on that cold morning in Decem-

Our first order was to cut and carry in enough wood to serve the garrison Bob.

ber among the boys.

Berging our the school master.

My early life was made miserable by one Mulberry Bangs, a gantleman of the old school, who devoted himself to reading, writing, and arithmetic, and the sides. We gave no end of lond hangs, and other parts of our streets are of stick. Upon my head and hangs, and other parts of our streets are streets are swarming with children during school hours who look as if they had, hangs, and other parts of our streets are swarming with children during school hours who look as if they had, has carried by storm with severe loss. The school hours was hourself to reading, writing and arithmetic. He carried by store who like Topey, "growed" out of the gutters. The school hours was hourself to reading the carried by storm with severe loss. They wanted to burn it, but I got opposite the

of this, but to give, in brief some of the cries for kelp was opened quickly, and Jack thrust out. The result of this stood throughout the country that the boys are justifiable in barring.

was a hurried consultation. The benches and desks were quietly removed. A sortie had been determined u on. The master stood at the side of the house, south of the door, and as soon as the opening was made, Bil unclosed a shutter and proposed a parley. The answer was a rush at the open window by the mas-ter, who began climbing in. Brave lit. Jack seized him by the legs, and before tained, and from an orifice in which the were clinging to them, while as many more held him on the inside. Bill seized the repe, and attempted to pass the the curved portion of the latter serving noose over his arms. In the hurry and confusion of the fi-ht he succeeded in ceptacle vibrates. This oscillation takes getting it over his head. Pulling at it as place under the entering stream; so that ending the useful labors of this teacher by the weight of water within, the secthe boys did, there was a fair prospect of no one of us doubted; but Bob, having pendulum, beating seconds, is supended climbed over the master i the window, and all of the school pulling at the end distant from the resting point of the of sid Bangs, was soon master of the rocker, and regulates the movement of situation. Getting hold of the rope, and assisted by Bill we succeeded in tying the arms of the exhausted man to his sides. He was tumbled from the win-

"Will you give up?" demanded our

leaders. "No!" gasped the master. The brave old-pedagogue still refusing, was drugged, rolled and tumbled to

the well curb.

"Fire!" said Bill and Bob; and two chanks palled out by the boys had compoles were thrust with all the strength the stoutest arms could give them. They concern was in a blaze. A few neighbors who just them arrived, gave the dogs heard something drop and went for two took the indignant pedagogue in the bors who just them arrived, gave the light took the indignant pedagogue in the sides with such force that, but for his alarm and attempted to extinguish the light it was not the coon. It was fill from five acrees for \$15,050.

thrust out. One bit with decided effect, in the commissary, valgarly called the stomach; the offer, as he stooped doubled up by the pain, in the face, indicting an ugly wound, from which the blood flowed in profession. He retreated and we saw him fairly dance with rage and pain. The more of this he indulged in, the wilder grew our delight, which we testified in roars of laughter.

He soon ended this exhibition, and disappeared around the school house, in the commissary, valgarly called the offer as he stooped ment. The sun dial, it is true, occasionally serves as an ornament to some country lawn, but little dependence is placed on its slowly ere-ping shadows. The hour glass has disappeared from the pulpits of the parsons; for twenty minutes and pain. The more of this he indulged in, the wilder grew our delight, which we testified in roars of laughter.

He soon ended this exhibition, and disappeared around the school house, their flocks. The divided candle exists and reformatories, and lunatic and idiot knowledgement of his splendid services. isappeared around the school house, their flocks The divided candle exists vidently on a reconnoissance. There only history, and is linked with the was a dead silence, and we realized that story of good King Alfred. But the wawhich we have so often felt since, the ter clock remains; not in this country, which we have so often felt since, the ter clock remains; not in this country, jot for the country.

In the child is the father of the man. Naval Survey, has invented an instrument to correct errors in compasses, the This was ended by a noise on the roof; thousand years ago. Julius Casar, the summer night, in Britain are not the ing into the room, told us that stratagem the summer night, in Britain are not the had taken the place of assault. We were same length as those in Italy. Cicero relates that the length of speeches made by senators was regulated by clepsydrae casion. Hastily removing the burning kept in the senate chamber; and the chunks from the stove, and taking down same parliamentary practice, which now meet a boy, whale him-for if he has the pipe, one of the long poles was thrust holds in our own legislative halls, of a member yielding the floor for a certain number of minutes of his time to another speaker then existed, for a grave quences were ratting of falling boards senator often gave so much of the water as remained in his clepspdra to a colment, as the beastly appearance and ier body upon the ground. We found league, who was thus enabled to obtain character of the man. Later in life, I afterward that the master had not only a long or an extra water time for his league, who was thus enabled to obtain was the scholar of a man who was as excered the chimney top with boards, speech than would have been otherwise severe with the rod, almost, as Bangs; but had seated himself on them. The at his command. If a legislator in those days, however, was interrupted by him as one of the noblest of men, and, bled him off. We then heard dismai absurd questions-something after the the truest friend I ever encountered. groans and cries for help.
